## Experience the Mystique and Artistry of the Islands with Bali Teak Collective

What if it were possible to transform your home into a Balinese villa? Imagine immersing yourself in the captivating beauty of Bali, surrounded by unique and meticulously handcrafted hardwood furniture from the islands of Indonesia...

Welcome to Bali Teak Collective, a cooperative founded by Dr. Zach Laboube, an international chiropractor, author and avid world traveler. Inspired by his travels throughout Southeast Asia and the magnificent furnishings of his own classic Balinese villa, Dr. Zach has made it his mission to share the experience and charm of island living with friends and family in the States.

Our collective sources from several islands in Indonesia, constantly searching for the most unique and well-crafted items from artisans who have been in the furniture crafting business for generations. These durable and functional masterpieces have graced the pages of prestigious magazines and adorned renowned homes and hotels across the globe. Our workshops in Indonesia support best practices that are sustainable and responsible, while providing much-needed commerce and support for the indigenous islanders.

At Bali Teak Collective, our goal is to create a home design experience as unique as the island itself. We take pride in our hands-on approach throughout the entire customer experience. From creation in our workshops to the moment your order arrives at your doorstep, we ensure every step is imbued with meticulous attention to detail, tender loving care and the positive island vibes that Bali is known for. We take pride in providing exceptional service and furnishings for well below the standard retail prices of other high-end hardwood importers.

Thank you for choosing Bali Teak Collective...where commitment to value, exquisite craftsmanship and the spirit of Bali unite to create extraordinary furniture that will infuse your home with the magic of the islands.
